CODE OF CONDUCT

Members of the American Amusement Machine Association (AAMA) agree to conduct their business in an ethical, professional, respectful and responsible manner. We do so mindful of a set of core beliefs that are a guide to ensure we engage with our members, customers and communities with fairness and integrity.

We recognize and accept the responsibility of ensuring all the services and products we manufacture, distribute, support, and operate adhere to the following tenants:

1. We commit to ensuring our businesses meet all applicable safety standards and codes.
2. We conduct business and customer interactions honestly and fairly.
3. We comply with all local, state and federal laws and regulations pertaining to our businesses.
4. We honor all intellectual property rights of our members.
5. We abide and comply with the By-laws of AAMA.
6. We will not knowingly manufacture, sell, support or acquire new amusement games in the United States that do not meet a standard of performance that allows a player a fair chance of succeeding with every game played.

Players Can Expect:

- A player's skill can improve with practice and experience.
- A player's skill influences the outcome of the game.
- AAMA FEC Owner/Operators will ensure players are presented with age appropriate amusement games.

about AAMA

The American Amusement Association is a not for profit, 501(c)6 organization representing the manufacturers, distributors, part suppliers, and location/operators for the coin-operated amusement industry, through legislation, education, and information, and industry promotion. At AAMA you get a seat at the table with the industry's foremost thought-leaders. You're encouraged to get involved and contribute to the conversations shaping our association and industry. Here, it's understood "we" are so much smarter than "me".

our MISSION

To make the industry better through collaboration, education, advocacy, and networking. We never stop playing!

WE MAKE THE WORLD MORE FUN.

A letter from our BOARD PRESIDENT

Dear AAMA Members,

As we celebrate another year of growth and innovation within our vibrant community, I am filled with immense gratitude and excitement for the incredible journey we are on together. Each of you plays a pivotal role in shaping the future of AAMA, and I want to acknowledge the invaluable contributions you make every day.

This year marks a significant milestone for us as we expand our benefits and welcome new members into our fold. It's truly exhilarating to see the best of the best represented across our diverse membership. I believe we represent the best of the best, from Manufacturers and Distributors to Suppliers, Professional Services, and Location Based Operators. Your expertise and dedication continue to elevate our association to new heights.

As we take a fresh look at our organization, we are mindful of the rich legacy that AAMA is built upon. The value each of you brings to the table is immeasurable; and you consistently provide inspiration and innovation that drive our industry forward. Your willingness to engage, collaborate, and share your insights has been the cornerstone of our success.

I am deeply moved by how many of you have stepped up this year, declaring, "I want to be a part of something BIG." Your enthusiasm and commitment to taking AAMA into the next 44 years are truly inspiring. The work you do and the passion you bring to our association are invaluable assets that will shape our future.

As we continue to grow and evolve, I invite you to participate actively in our upcoming initiatives. Whether it's attending our all-new fall event, joining a committee, or contributing with your time, talents, and treasures, every voice matters. Together, we are not just maintaining an association; we are nurturing a vibrant community that will continue to lead and innovate in our industry.

Thank you for your unwavering support and for being an integral part of the AAMA family. Here's to another year of growth, collaboration, and success!

A letter from our EXECUTIVE VICE PRESIDENT

Since the dawn of man, humans have found their chances for survival were exponentially better when they're together than when they're apart or, as AAMA BOD member, Don Marshall puts it, "We are so much better than me."

What was true then is perhaps even more so today. The advent of social media has created more loneliness, not less. Think of how many meetings you now attend virtually, how much more time you spend interacting with a screen rather than an actual person, how many of life's milestones are celebrated with a thumbs-up emoji? And then along came the pandemic which was like adding gasoline to the fire of greater and greater isolation. In a world where virtual interactions have replaced a greater share of physical interactions, human connections are more important than ever.

Connecting people is exactly what AAMA does. At our core, we're in the business of creating clearings for people to show up to nurture relationships, form partnerships, and collaborate for the greater good. The constituents that comprise our membership form a complete industry eco-system that includes amusement game manufacturers, distributors, suppliers, professional service providers and family entertainment center owner/operators. They represent the entirety of the industry, from the kernel of an idea for a product all the way to when it finds its way into the public space.

The directory you're holding represents more than just a collection of contact information, it represents an entire industry committed to working together to literally make the world more fun. And I'll bet you'd agree, the world could use a bit more fun right now.

As an AAMA member, you have a seat at the table with the industry's best and brightest. It's a place where you can make a positive difference for yourself, your business, and your industry.

If you're someone looking to make that difference, join us – we'll save a seat for you.

Play more,

Pete Gustafson

supporting children in need **SINCE 1983!**

The AAMCF sponsors fundraising events throughout the year and during Amusement Expo International and our Annual Meeting & Gala, with a portion of the proceeds going to children's charities. To date, the AAMCF has donated over \$2,000,000 to children's charities across the globe.

LIFETIME AD JOURNAL

The Lifetime Achievement Award Ad Journal honors an individual whose contributions have left a positive and lasting impact on our industry. A portion of the net proceeds from the ad journal goes toward children's charities, scientific research, and educational organizations. Since the first Ad Journal was published in 2014, the AAMCF has raised almost \$700,000 through this single initiative.

MEMORIAL SCHOLARSHIP

J. Richard Oltman is an industry icon who celebrated life as an accomplished operator, location owner, game designer, and all-around industry innovator. In keeping with his generous spirit, passion for the industry and focus on education, Richard's family partnered with the AAMCF to establish an annual \$5,000 scholarship in his name.

HONOR ROLL

The AAMCF Amusement Expo International Honor Roll recognizes members who support the AAMCF through their generous donations. Recognition is given through signage throughout the show and show directory, and badge ribbons for all the donor's team members to wear.

GALA & KEEN KID'S ARCADE

Starting in 2018, a Text to Give event is held during AAMA's Annual Meeting's Gala Dinner. Over the past two years, AAMCF has been able to raise almost \$50,000 through this event.

The K.E.E.N., (Kids Enjoy Exercise Now) Kids Arcade is held on the last day of our Annual Meeting. We invite the children and their families from K.E.E.N. to enjoy the latest and greatest games our manufacturer members displayed at the Annual Meeting Gala the night before.

A letter from our AAMCF BOARD PRESIDENT

Greetings, Readers!

The AAMCF is proud to partner with the AAMA and deeply honored to dedicate our efforts to raising funds for deserving charities in need. Our focus is on organizations that support our industry's greatest champions — kids! And by "kids," we mean children of all ages, because the joy of play should never end.

Since 1983, we have contributed over \$3 million to charities making a meaningful impact. Over the past decade, our efforts have been elevated thanks to the dedication of our board, executive director, and the generous support of AAMA members. We are fortunate to be part of such a vibrant and FUN industry, and it is truly humbling to witness the incredible generosity of so many.

"No one has ever become poor by giving." — Anne Frank

Alan-1

Manufacturer

47 S 50 W, Tooele, Utah, 84074 United States

Brief Description: We opened a classic 80's arcade and soda bar in August of 2017 called Flynn's Retrocade. If you are in Utah, please come check it out! Our favorite game is Atari's Star Wars--so naturally our first product is the Atari Star Wars Flight Yoke Controller. We've stayed true to the original design, but improved it by upgrading the nylon gears and thumb buttons with aluminum. Our USB flight yoke adapter allows M.A.M.E. builders to use any Atari / Alan-1 flight yoke without cutting the harness.

Future products include deflection boards for WG6100 Vector monitors, unique WG6100 deflection board daughter boards that remove the bottle cap transistors from the monitor case and provide additional cooling, and anything related to CRT tubes. Please check out our dev blogs and schematic links to learn more. Our arcade games division is now in full production. Our goal is to bring back the magic of the 1980's through innovation, fun gameplay, and friendly competition. A video game, more than anything, a game! Games make life more rewarding--especially when shared with friends and family. We're passionate about making fun!

parental advisory system

GUIDE TO GAME CONTENT

The Parental Advisory System is a user-friendly system, endorsed by all sectors of the out-of-home amusement industry, members of Congress, and various child advocacy organizations, that allows consumers to quickly identify the content of arcade games.

The system uses a color coded, "traffic light" approach, so that even young children are able, with instruction from their parent(s), to make responsible game playing decisions.

Content is appropriate for game players of all ages.

May contain mild violence, suggestive themes, minimal blood or crude humor.

May contain strong language, sexual content or strong violence involving human characters resulting in blood and gore.
